EXPERIENCE

Dialpad Inc. | Senior Software Engineer

Aug 2021 - Sept 2023

Pangalore, India

- Developing strategic microservice based integrations to expand the Dialpad app marketplace using *Python & VueJS*, hosted on Google Cloud Platform.
- Delivered \$700k additional revenue per quarter across 4 major integrations viz Salesforce, Hubspot, Zendesk & Servicenow.
- Implemented numerous on-demand bespoke customer requests in addition to on-call support to reduce churn significantly.
- Driving engineering productivity efforts within the integrations team.
 - Enabling self-hosted integrations on the Dialpad platform.
 - Set up behaviour driven tests infrastructure for backend components.
 - Transitioned to Github Actions and automated weekly beta releases.

ColorTokens Inc. | Member of Technical Staff

Bangalore, India

- Contributed to architectural re-design of XShield, an enterprise micro-segmentation platform, by migrating from a monolith to a micro-service based design.
- Maintained Python/Flask micro-services for discovery and real-time monitoring of customer assets on public clouds, viz AWS and Azure.
 - developed an interval based polling mechanism for asset discovery.
 - developed a real-time event ingestion pipeline for platform events using *serverless* functions and *custom webhooks*.

Anapi Pte. Ltd | Senior Software Engineer

Aug 2018 - Sep 2019

♀ Singapore, Telecommute

- Joined as the first engineering hire, responsible for maintaining and releasing all software offerings in addition to onboarding and mentoring junior engineers
- Designed a robust digital insurance API using *Node.js* deployed via *Docker* builds to *AWS*, to help online businesses enable on-demand protection through appropriate insurance products.
- Architected bulk policy purchase and claims ingestion pipelines, ensuring data sanitization for regulatory and auditory compliance.

Spectral Insights (acq nference Inc.) | Software Engineer

Mar 2017 - Jun 2018

Pangalore, India

- Integrated software components of a medical whole slide scanning device.
- Maintained the cloud interface to publish analytics for a pathology slide scan.

PROJECTS

Drone CI SDK

O tinvaan/drone-python

</> Python

• Python wrappers for the Drone CI public API.

Mazure

tinvaan/mazure

</> Python/Flask, Mongoengine

• A dynamic and stateful mocking library for the Azure Python SDK.

UAV Mapper

Tinvaan/qtquick-mapview

</> C++, Qt/QML, CMake

• Simulates a linear interpolated flight path for a UAV from available flight data on a QML mapview.

EDUCATION

Master of Science in Technology and Design (Cybersecurity)

Singapore University of Technology and Design

2023-2024

♀ Singapore

Bachelor of Computer Science and Engineering

Amrita Unviersity

2012-2016

Amritapuri, India

ACHIEVEMENTS

Google Summer of Code 15', 16'

- Ported legacy KDE applications to newer KDE Frameworks API.
- Redesigned applications to provide convergent UI's across devices of varying form factors.

Certificate of appreciation

Acknowledged by **Amrita University** for continued contributions to **FOSS** communities as a student.

EVENT INVITES

FOSSASIA summit

₩ 2018

♀ Singapore

Delivered a presentation \$\infty\$ on creating convergent applications using the Kirigami UI framework.

Randa Meetings

2015, 2017

Randa, Switzerland

Invited to participate in the annual KDE developers meetup to collaborate with other active members of the community.

WikiToLearn sprint

2016

CERN, Geneva, Switzerland

 Invited to participate in the innaugural Wiki-ToLearn & KDE developer's sprint held at the CERN IdeaSquare lab.

SOFTWARE SKILLS
